

Sticker Template

SAFE ZONE:

All critical elements (text, images, graphics, logos, etc.) must be kept 1/8" (0.125") away from the **Cut Line**.

CUT LINE:

Cut Line indicates what is the final shape & the size of your sticker. Allow 1/8" (0.125") cutting tolerance all around. We do not recommend having borders due to shifting in the cutting process, which may cause borders to appear uneven.

BLEED:

Make sure to extend the background image or colors of your **Design** so that on all sides it is 1/8" (0.125") larger than intended final Sticker Cut size.

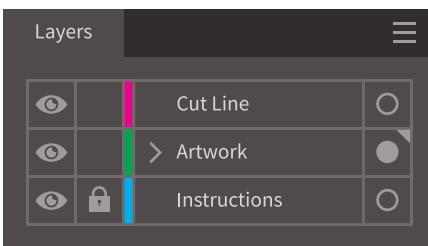

Artwork with the Bleed - 2.25"

Final Sticker Cut Size - 2"

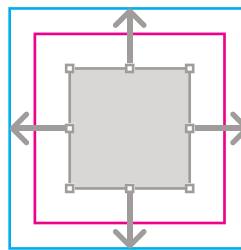

Final Sticker.

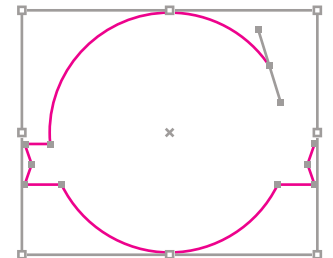

- 1 Place your design onto the **Artwork** layer and hide the **Instructions** layer as needed.

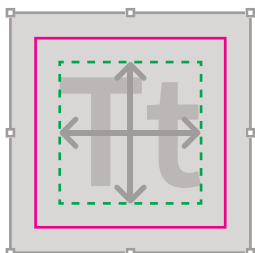

- 2 Resize your **Design** so that on all sides it is 1/8" (0.125") larger than intended final Sticker Cut size.

- 3 Create your Cut Line with a stroke on the **Cut Line** layer.

- 4 Check that all the essential elements of your design are in the **Safe Zone**.

- 5 Outline or Restarize all the **Fonts**, embed all the **Images** and **Links** in your design and **Save** the File.
